We are about to open a school for deaf children in this city, which will be under the supervision of this department. I take the liberty of asking your opinion in regard to the method which should be used. I shall be pleased to have you not only give me your opinion, stating the method, but also your reasons for recommending the same. I was considerably interested in the meeting held at Washington, and am glad to know that this important branch of education has received the recognition it so richly deserves by being made a part of the N. E. A.

Thanking you in advance, I remain

Yours truly, (Dictated) J. A. Foshay Sup't.
